

GDM is present in two Brazilian rankings

One of them is the “Largest companies Inc. (Incorporated) Ranking” of the state of Paraná for the year 2020, and the other is the “500 Largest Companies Ranking” in southern Brazil (Paraná, Santa Catarina and Rio Grande do Sul states).

Largest companies Inc. Ranking of Paraná state 2020

To generate this Ranking, information is used based on the financial statements of the Inc. companies, published every year in an official Brazilian newspaper called “Diário Oficial”. The objective is to offer data for public knowledge and opinion formation, highlighting the business contributions of the Incorporated Companies.

The Largest companies Inc. Ranking of Paraná state 2020 was based on the financial statements of 2019 and was published at the beginning of this year (2021). The data for public knowledge will be released on February 23 in the Brazilian newspaper "Diário da Indústria e Comércio".

500 Largest Companies Ranking in southern Brazil

This ranking is generated by the consulting company PwC and the Amanhã Group (multiplatform communication group generating value for brands and companies).

Around 30 sectors from different states of Brazil (Paraná, Santa Catarina and Rio Grande do Sul) are evaluated, using the Weighted Value of Grandeur (VPG) * as the main indicator, which results from the sum of equity (50%), net income (40%) and net income for the year (10%). Businesses are also valued for their higher net income and higher return on income. When the company enters the top 100 in its state, other indicators are also evaluated.

This year, GDM won the category of most profitable company in the agricultural sector. This sector includes certain companies that have a direct or indirect connection with agribusiness. Likewise, in the ranking, the Group is ranked 243 out of the 500 largest companies in southern Brazil.

*** indicator used in Brazil.**
